IT Support | Systems Administration

SUMMARY

IT and systems professional with MSP experience supporting endpoints, cloud services, and business systems, with a background in web development. Comfortable using modern tools to accelerate development, automate workflows, and troubleshoot technical issues across users, infrastructure, and software.

TECHNICAL SKILLS

Support & Admin: Windows, macOS, Microsoft 365, Entra ID, Google Workspace, GAM, CIPP, Intune, Windows Autopilot, Apple Business Manager, Addigy, NinjaOne

Security & Network: SonicWall, VPNs, DNS, DHCP, SPF, DKIM, DMARC, SentinelOne, Huntress, Duo, DNSFilter, Avanan, Cove, DropSuite, Auvik

Service Delivery: Autotask PSA, Hudu, CloudRadial, ticket triage, end-user support, technical documentation

Development & Cloud: React, Next.js, ASP.NET Core, PostgreSQL (Neon), Python, Git, Docker, Cloudflare, Vercel, Cursor, Render, Sanity, Shopify

EXPERIENCE

IT Systems Administrator | *KRNL Technology (MSP)* krlntech.com 10/2024 - 09/2025

- Administered 5 client environments across Microsoft 365, Entra ID, and Google Workspace.
- Supported 250+ Windows and Apple endpoints using Intune, Addigy, NinjaOne, and Windows Autopilot.
- Resolved end-user issues involving account access, permissions, device enrollment, and endpoint configuration.
- Troubleshot network connectivity, firewalls, VPNs, and DNS with Auvik for network monitoring and topology maps.
- Supported endpoint, identity, email security, MFA, and backup systems using SentinelOne, Huntress, Duo, DNSFilter, Avanan, EasyDMARC, and Cove.
- Helped automate client portal and user onboarding workflows using Autotask, CloudRadial, and Hudu.

Certification: [Associate Google Workspace Administrator](#)

Freelance Web Development | *DCL DEV* jakedcl.com 2024 - Present

- Build, deploy, and maintain custom web applications for small-business clients using modern web frameworks, CMS platforms, and cloud services.
- Provide ongoing technical support for 6 recurring clients across hosting, domains, DNS, SSL, email, CMS platforms, SaaS integrations, and production issues.

Audit Intern | *NYC Department of Investigation* nyc.gov/site/doi 06/2024 - 08/2024

- Analyzed structured datasets in Excel and Python and produced reports to support investigative review and reconciliation work.

Logistics & Operations Associate | *NY Design & Construction* nydacinc.com 05/2022 - 05/2024

- Supported event-production operations while managing company systems and digital infrastructure in a fast-moving, client-facing environment.

Technology Instructor | *NYC DYCD COMPASS STEM Program* whizara.com 09/2023 - 06/2024

- Taught introductory programming and digital literacy to elementary-school students using MIT Scratch.

SELECTED PROJECT

Logiparty.com | Third-Party Logistics Business Dashboard github.com/jakedcl/logiparty

Next.js · Drizzle ORM · Neon Postgres · NextAuth · Cloudflare R2 · Stripe · Resend · Vercel

- Designed and deployed a multi-tenant SaaS platform with organization-scoped environments, PostgreSQL Row-Level Security, role-based access, and audit logging.
- Built operational workflows for jobs, inventory, fleet, crew assignment, and client requests while integrating cloud storage, authentication, transactional email, and billing services.

EDUCATION

B.S. in Computer Science | CUNY College of Staten Island

May 2026
